Logo Composition

Priority shall be given to the NOC logo on a white background. The logo has two forms: vertical and horizontal.

The logo is made of two elements:
– the icon;
– the wordmark, which is composed of the capital letter N, the number 0 and the capital letter C.

1. The blue icon
2. The wordmark
Icon

The N0C icon can be used separately (without the wordmark).
Construction Grid

The construction of the two forms of the N0C logo and their proportions are shown on the grid.
Exclusion Zone

No graphical or typographical elements that could reduce legibility or impact shall enter the specific clearance zone around the NOC logo.

Breathing spaces are constructed around the logo using half of the height of the icon (marked as X in the diagram).
Establishing a minimum size ensures that the impact and legibility of the logo is not compromised in application.

The horizontal logo shall never be smaller than 20mm in print or 70px in digital.

The vertical logo and icon shall never be smaller than 6mm in print or 21px in digital.
Black Monochrome

Some special machines do not support colours (laser printers, etc.). In addition, when NOC is making partnerships with other companies, they can ask for a monochrome logo.

In such situations, black monochrome icon on a white background and a white icon on a black background can be used.
Primary Colours

The primary colours of the logo are blue and grey.

Background Colour Use

Reminder: Priority shall be given to the NOC logo on a white background.

Two different uses are permitted for the background:
- the white NOC logo shall be used on the primary blue colour background;
- the blue NOC logo shall be used on the primary grey background.
Typography

If Lato font cannot be used, try commonly available default in this order:

- Default sans-serif;
- Helvetica Neue;
- Helvetica;
- Arial.
